SUMMARY

Detail-oriented B.Tech student with strong analytical and problem-solving skills. Possess practical experience in data handling, reporting, and process optimization through academic and project work. Demonstrated ability to collaborate in team environments, manage tasks effectively, and communicate insights clearly. Seeking a Customer Operations Analyst Internship to contribute to reporting, automation, and customer-focused operational excellence.

AT PRESENT

B.Tech in Electronics and Computer Science Engineering

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, Odisha

Jul 2024 – May 2027

CGPA: 8.67/10

EDUCATION

Diploma in Electrical and Electronics Engineering

University Polytechnic, BIT Mesra, Ranchi

Aug 2021 – May 2024

CGPA: 8.59 /10

TECHNICAL SKILLS

- **Languages:** C, Java, JavaScript
- **Analytical Skills:** Data Analysis, Reporting, Process Optimization
- **Core Concepts:** Data Structures, OOPS, SDLC, Debugging, Unit Testing
- **Databases:** MySQL, SQL
- **Tools & Platforms:** Git, GitHub, MS Excel (Advanced), Google Sheets, Power BI, VS Code, Eclipse
- **Methodologies:** Agile Development, Code Review, Version Control
- **Concepts:** Project Planning, Documentation,
- **Soft Skills:** Analytical Thinking, Problem Solving, Adaptability

EXPERIENCE

Mar 2025 – May 2025

Web Development Intern – TechnoHacks Solutions (Remote)

- Collaborated with the development team to build and maintain responsive websites and web applications using HTML, CSS, JavaScript, and React.js
- Collaborated with cross-functional teams to deliver project tasks within deadlines.
- Contributed to documentation and process improvement initiatives.
- Contributed to feature implementation and bug fixing following Agile methodology.
- Gained hands-on experience in agile development, technical documentation, and delivering tasks in line with project deadlines and quality standards.

PROJECTS

Responsive E-commerce: HTML, CSS, JavaScript

Jun 2025

- Developed a fully functional responsive e-commerce website with dynamic product listing, shopping cart, and checkout features.
- Ensured seamless user experience by implementing mobile-first design and cross-browser compatibility.
- Enhanced interactivity and usability through JavaScript-driven functionalities.

WeatherApp Responsive Web Application: HTML, CSS & JavaScript

Feb 2025

- Built a responsive weather app integrating OpenWeatherMap API for real-time data.
- Designed adaptive UI for smooth performance on mobile, tablet, and desktop devices.
- Enabled live weather updates and dynamic user interaction with JavaScript.

Vehicle Speed Detection: Java, Python, Node.js, MySQL, REST APIs, AWS

Nov 2025

- Built a real-time Vehicle Speed Detection System using Python, Java, and React.js with image processing and backend integration.
- Developed a web dashboard using Node.js, PostgreSQL, and REST APIs for monitoring and data analysis.
- Deployed on AWS with CI/CD pipelines for scalability and real-time processing.
